## City Authorities Campaign For Dog Inoculation Here

Attack On Child By Dog Emphasizes Importance of Compliance

A report of the attack of an unleashed dog on a child in the vicinity of Fifth Street brought forcibly to the attention of the City Commission the very poor compliance with the City ordinance concerning licensing of dogs in the Commission and resulted in the Commission agreeing to Inspector Wynn's recommendation that a campaign of enforcement be vigorously followed.

To secure a license for your dog in the City you must present a certificate of an inoculation against rabies during the immediate preceding six month period, which is the most important reason for licensing. Another reason is to get rid of those dogs that have no owner, or are indifferent owners.

Innoculation is for the protection of the public, and is something that everyone agrees to do, but dog owners are careless about it. In order to check on this inoculation the City will pick up all dogs not having a license tag.

By getting your dog inoculated at a cost of \$1.50 and a City license for \$1.50 for males, and \$3.00 for females, you are protecting your dog and the children of the community. By not doing this before the Pound Men get him it will cost you \$1.00 for The Man, the license fee AND \$5.00 for the inoculation. If you love that pooch, you better get it at his QUICK.

## Community Safety Committee Takes Dismissal Job

If you lack interesting and engaging subjects to "while away your time, and want to add to the benefit of the community just line up with the Safety Committee recently organized and composed of a representative from each of the local organizations.

After one or two rather desultory meetings at which several recommendations have been made, a meeting last week drew some twenty odd Avenue A merchants who vociferously, emphatically and unanimously recommended that the committee be given the right to recommend dismissal of any merchant who fails to comply with the ordinance.

The matter of the length of trucks or pickups allowed to be parked on Avenue A was recommended to be not over 18 1/2 feet.

Discussion was had on the side walk from the bridge to the school.

Another recommendation was made concerning a bridge to be placed over the canal, which crosses the Hillsboro Canal.

The City has already begun activity on a light to be placed at the north end of the bridge and Main Street.

The problem of traffic at Main Street and the bridge, with the east and west approaches on both sides of the Canal is becoming most troublesome and precarious.

Mr. Wm. Eglington, a planner, and former City Father comes up with the suggestion that a bridge be put at the east end of town and a street north from there to the Airport road.

This would divert all packing house truck traffic away from the center of the City as well as away from the school.

We are going through a growing stage and must therefore continue to develop traffic plans.

Yes, if you lack interest in things municipal attend one of the Traffic Committee meetings.

## Okeelanta Closes Most Profitable Grinding Season

With the closing of its harvesting operation on March 31st, the Okeelanta Sugar mill closed its most profitable and longest season of operation.

Louisiana, with a 70 to 80 day grinding season is far outstripped by the Florida operation, as Okeelanta operated 144 days this season.

The longest up to that time, they operated 107 days. Late maturing cane, chiefly from contract growers allowed an additional harvest as well as provided the additional tonnage.

In 107 days of operation last year 33,000 tons were ground, and this year 178,000 tons were ground in 144 days for a daily average of 1237 tons.

Resident Manager McKendree spent the past summer off months reworking and adding to the mill and making ready for the 1953 season.

Further improvements and additions to the mill are expected to be ready for the 1954 season. The mill is now in process of acquiring the efficiency of the mill was increased by the changes as evidenced by the 1953 season.

When a discussion of the need for National Colors, as well as an appropriate Club Standard, two members offered to underwrite the cost of the flags, and were promptly taken up by the Club.

While the ordering was being done, Club officials decided to "go whole hog," so that not only the National Colors, plus a very handsome Rotary flag, along with the proper staffs and holders, together with a group of flags containing miniatures of a group of all members throughout the world in which Rotary has clubs, were included.

Rotarians Harold Rabin and Charlie Bolton presented the flags to the Club Wednesday as a gift from themselves with some token financial assistance from other members.

Chip Pulls a "Pip"

Chip Hanson is a clever commercial artist. Beside doing cartoons on our paper, he picks up "free lance" drawing jobs.

Right now he's whipping up posters for the Safety Campaign.

They all have headlines like "DON'T SMOKING - IT'S A LIFE THREATENING HABIT."

Chip looked a bit sheepish yesterday. Didn't want to tell me. Finally he blurted out, "I feel like a dope. Here I am on this safety program and the first cigarette I've been smoking since there for years."

You hear so much these days about the new "mechanical brain" that some people begin to wonder if there's going to be a limit to human intelligence. One of the big new computers can do 10,000 calculations or subtractions a second and with never a mistake. It's a machine that can solve problems that would have kept Einstein working all the time.

But if this is the case, why do we have a "mechanical brain" that can do 10,000 calculations a second and with never a mistake? It's a machine that can solve problems that would have kept Einstein working all the time.

The day of trouble comes to us all—the time and the times when we realize our pitiable weakness and impotence. Then—and too often only then—do we beseech the Lord for help, for guidance, for strength. ## MRS. BERT ROEMER TO REVIEW MASTERPIECE

The resurrection body was explained last Sunday night by Father John Churens, Pastor speaking before the Belle Glade Episcopalians at the home of W. D. Matthews.

Christians do not believe in the ancient Hebrew notion of resurrection, said the vicar; nor yet in the Platonic notion of a pure spiritual survival. Following St. Paul, the Church teaches that we shall have bodies in the resurrection life just as the ascended Christ has a body. But it's a body that has been transformed—a spiritual rather than a physical body.

Next Sunday night at 8 p.m. the group will meet at the home of Mr. and Mrs. Bert Roemer, S. D. Ave. D. to hear Mrs. Roemer give a review of C. S. Lewis's masterpieces, "The Screwtape Letters," which has sold several hundred thousand copies. Lewis, an Oxford don, was converted from agnosticism in his forties and is now looked upon by many as the spiritual successor in England of the late G. K. Chesterton.

**CHURCHES OF CHRIST SCIENTIST**

"ARE SIN, DISEASE, AND DEATH REAL?" is the subject of the Lesson-Sermon to be read in all Churches of Christ, Scientist next Sunday.

One of the passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy bearing directly on this question is: "All reality is in God and His creation, harmonious and eternal. Therefore the only reality of sin, sickness, or death is the awful fact that unrealities seem real to human, erring belief, until God strips off their disguise" (p. 472).

Among correlative selections from the Bible is the following from Habakkuk (1:12): "Art thou not from everlasting, O Lord my God, mine Holy One? we shall not die. O Lord, thou hast ordained them for judgment; and, O mighty God, thou hast established them for correction."

The Golden Text is from Proverbs (12:28): "In the way of

righteousness is life; and in the pathway thereof there is no death."

**DR. WILLIAMS WILL SPEAK TO BAPTISTS**

Dr. J. T. Williams of Lakeland, returned missionary from China, will speak at the morning and evening services at the First Baptist Church.

"There will be a clinic held at the church, for all workers in vocation Bible School on the lakeside, April 14, from 9:00 a.m. to 2 p.m. Trained workers will assist in the school.

Baptist Palm Lake Association will hold a meeting April 16, from 10 a.m. to 2 p.m. at the Northwood Baptist Church, West Palm Beach.

**CIRCLES OF BAPTIST HOLD REGULAR MEET**

Mrs. Ellis Wilkinson was in charge of the program when the Gladys Smith Circle met at the home of Mrs. R. E. Hollingsworth Tuesday night.

Mexico," and used a poster to illustrate the topic. She also gave Mexican hats to those present.

Mrs. Marvin Unwin, president announced that the circle would be in charge of refreshments for the general meeting.

**Outline for the INTERNATIONAL SUNDAY SCHOOL LESSON.**

For April 12, 1953  
Lesson Title — "Paul's Conversion At Damascus"  
Scripture — Acts 2: 3-18

Introduction:  
Today begins a new series on the Apostle Paul. This is fitting in the light of the fact that we closed our study of the life of Jesus with His Command to "Go into all the world"; Paul, more than anyone else, does just this.

Outline:  
I. Paul the Jew — Acts 22:3.  
II. Paul, the Persecutor — Acts 22: 4-5.  
III. Paul's Conversion — Acts 22: 6-11.  
IV. Paul and Ananias — Acts 22: 12-16.  
V. Paul's Vision in Jerusalem — Acts 22: 17-21.

Conclusion:  
I. God uses even the "Wrath of Men" to fulfill His purpose.  
II. The Conversion of Paul is the beginning of the Gospel for the Gentiles, thus it is of paramount importance to us.

# VEGETABLE INSPECTION

(Continued from Page 1)  
"government inspection."  
Generally the crew of inspectors come into the Glades around November 1st and stay until June 1st, when they go on to the northern part of Florida, and on into Georgia, Carolina and even up to New York State.

Spring potatoes this season has made up somewhat for the loss of cabbage shipments.

Mr. Phelan came to the Glades in '41, and has served this area since that time.

As the tone of an organization is indicated by the thinking of its "Boss," we quote below, from Mr. W. Baker, Deputy Director of the Fruit and Vegetable Branch, USDA in a talk recently to the Florida inspectors:

"I have always believed that the strength of our inspection service was predicated upon the manner in which our work was conducted in the field. In the final analysis, those of us in the Washington office are largely dependent upon the ability and integrity of our field force. Over the years our force has made a remarkable record. Those of you who have worked with us

over the past 20 years can well recall the problems faced, and I believe recognize the remarkable progress we have made. No person can fail to gain in moral and mental strength in our service, providing that person follows instructions, and conducts himself in the proper manner.

When an individual assumes such responsibilities he immediately puts himself in a position that must command respect, as well as compliance with his instructions. Inspectors should be prepared to meet grade requirements.

"Honest errors in judgment in grade interpretation seldom weaken the regard of the people whom we serve. The inspectors who have conducted themselves properly have left an indelible stamp of approval of our operations throughout the length and breadth of our country, as well as establishing precedents upon which similar work is now being carried on in many foreign countries.

"Certificates issued based upon inspection made on the items covered therein are prima facie evidence in all Federal courts and many State courts.

They are the foundation upon which our present day methods of trading in these commodities are established."
